Classic Sheep and Cattle Nut

Classic Sheep Stockfeed blends grains and protein meals with BioChar Activated **Feed Additive**, to provide your herd with essential mineral and vitamin requirements for optimum health and productivity.

Our **Classic Sheep Stockfeeds** offer you an affordable and environmentally friendly option while delivering superior health to your sheep.

Nutrition

Provides essential minerals for sheep and cattle, considering the requirements and differences of foraging behavior, age and stage of production. Increases production due to binding of Mycotoxins and positive gut health. BioChar Activated Feed Additive extends retention time of feed and improves the Feed Conversion Ratio (FCR).

Superior Health

The key ingredient is a specially formulated blend of biochar for animal ingestion to improve livestock health through favourable gut micro flora and removal of pathogenic flora (e.g. Campylobacter and Heliobacterium), aiding weight gain and ultimately improving the profitability of your sheep operation.

Environmental Benefits

Reduction in nitrogen loss and greenhouse gasses (reduced odour) due to enhanced Cation Exchange Capacity; decreased Ureolytic activity; and decreased PH or aeration. The value of manure is also improved creating a more stable fertiliser with higher nitrogen, phosphorus and potassium (NPK) values and stable carbon to add to soil values for future carbon credits.

CLASSIC SHEEP AND CATTLE NUT

PRODUCT DESCRIPTION

Classic Sheep and Cattle Nut is a premium quality supplement suitable for cattle, sheep, goats and alpacas. The addition of BioChar Activated will increase weight gain, improve feed conversion ration, decrease manure odour and improve the health and wellbeing of your animals.

TYPICAL COMPOSITION

Cereal grains, legumes and pulses, vegetable protein meals, vegetable oils, salt, limestone, bentonite, MDCP, BioChar Activated, amino acids, enzymes, vitamins and minerals. Raw materials may change depending on seasonal variability.

DIRECTIONS FOR USE

- Classic Sheep and Cattle Nut is not a complete feed. It must be fed in conjunction with roughage or pasture grazing.
- This ration must be introduced slowly to allow the rumen to adapt and to prevent ruminal acidosis. Over a 3-week period, gradually increase the amount of pellets fed and reduce the amount of roughage fed.
- Ensure that fresh, cool and clean drinking water is available at all times.

Classic Sheep and Cattle Nut can be used for the following conditions as a guide only:

Sheep:

- Feed up to 2% of bodyweight.

Stage of Development	Feed Intake (Kg / Head / Day)
Lambs	0.1 - 0.3
Ewes with lambs	0.5 - 1

Cattle:

- Feed up to 2% of bodyweight.

Stage of Development	Feed Intake (Kg / Head / Day)
Weaners	1 - 2
Steers	2 - 4
Cows with calves	4 - 6

Goats:

- Feed up to 1.5% of bodyweight.

Stage of Development	Feed Intake (Kg / Head / Day)
Growing goats	0.4 - 0.5
Adults	0.8 - 0.9

Alpacas:

- Feed up to 1% of bodyweight.
- Roughage should make up no less than 50% of the animal's total dry matter intake.

Stage of Development	Feed Intake (Kg / Head / Day)
Growing alpacas	0.2 - 0.4
Adults	0.4 - 0.7

NUTRITIONAL ANALYSIS

CRUDE PROTEIN	ENERGY (ME)	FIBRE (NDF)	CALCIUM
20.8%	12.7 Mj/Kg	19%	1.4%
PHOSPHORUS	FAT	STARCH	SALT
0.9%	5.1%	39%	1.7%
MAGNESIUM	COPPER	SELENIUM	VIT
0.4%	5.95 ppm	2 ppm	40 Kiu

QUALITY PRODUCT

This product is manufactured under strict quality control standards.

WITHHOLDING PERIOD

Nil.

WARNING

Feed only to ruminants.

This product does not contain urea or medication.

THIS PRODUCT DOES NOT CONTAIN RESTRICTED ANIMAL MATERIAL.

STORAGE

Store in a cool, dry, shaded area, protected from vermin.

BEST BEFORE

3 months from manufacture.

PACKAGE SIZE

25kg bags, 500kg bulka bags, 1000kg bulka bags, bulk.
